

TV CONVERTER BOX COUPON PROGRAM

Do you have a TV in your home that works with the help of “rabbit ears” or a rooftop antenna?

If so, you should be aware of an important change in broadcasting coming in **June 2009**.

If you receive free TV using an antenna and your TV is not digital, you need to take action sometime before the end of analog broadcasting on **June 12, 2009**.

What's this about? On February 17, some full-power broadcast television stations in the United States may stop broadcasting on analog airwaves and begin broadcasting only in digital. The remaining stations may stop broadcasting analog sometime between March 14 and June 12, 2009. **June 12, 2009 is the final deadline for terminating analog broadcasts under legislation passed by Congress.** The digital transition will provide a better viewing experience for consumers and help emergency responders protect your community.

The **Digital Television Transition and Public Safety Act of 2005** created the TV Converter Box Coupon Program for households wishing to use their analog TVs after the transition. The Federal government is offering US households up to two \$40 coupons to help pay for the cost of a certified converter box. TVs connected to cable, satellite, or other pay services do not need a converter box to receive programs after the analog shutoff.

What do I need to do? For each analog TV you own, you need to decide *before June 12, 2009* how you would like to get programming after the change to digital.

What are my options?

1. Buy a converter box that will plug into your current TV,
2. Buy a TV with a digital tuner,
3. Connect the analog TV to cable, satellite or other pay service.

More information can be found online at www.DTV2009.gov.

How do I get a coupon? Apply online or by phone. You may also mail in or fax a Coupon Application. You may request one coupon now and one later, but no more than two coupons per household are allowed. Coupon supplies are limited. Coupons expire 90 days after they are mailed.
